

# INSTRUCTIONS

## MS WORD 97-2007 APPLICATION FOR TEMPORARY ENGINEERING PERMIT

### CONTENTS

**The Application for Temporary Engineering Permit contains the following files:**

1. These instructions (README.DOC)
2. Application for Temporary Engineering Permit (TEMP\_PERMIT.DOC)
3. Law & Rules Examination with Answer Sheet (LAW\_RULES\_EXAM.PDF)
4. Verification of Licensure or Examination Form VERIFICATION\_FORM.DOC)

The Application for Temporary Engineering Permit is referred to as the "Temporary Permit" in these instructions. Two additional forms are included with the Temporary Permit:

- (1) Verification of Licensure or Examination Form
- (2) Law & Rules Examination Answer Sheet

### ENGINEERING DISCIPLINES

Agricultural	Fire Protection	Naval Architecture & Marine
Chemical	Industrial	Nuclear
Civil	Manufacturing	Structural
Control Systems	Mechanical	Petroleum
Electrical	Metallurgical	
Environmental	Mining/Mineral	

### VERIFICATION OF LICENSURE OR EXAMINATION FORM

You must send the Verification of Licensure or Examination Form to the state licensing boards where you were FIRST licensed or certified or where you passed the FIRST professional examinations. You listed this information in Section 3 (Licensure) of the Temporary Permit. For example, you passed the Fundamentals of Engineering examination in Texas; you were certified as an engineer intern in New Mexico; you were first licensed as a Professional Engineer in Colorado; therefore, you must send the verification form to the licensing boards in Texas, New Mexico, and Colorado.

Enter the name and address of the appropriate state licensing board in the "To:" field. Enter the date and your identification data in the fields located in the top right of the form.

Some states charge a fee for verification. It is your responsibility to include any required fee.

You should include a stamped envelope with this Board's address as shown in the "From:" block on the verification form.

## Law & Rules Examination

The Laws & Rules Examination is designed to insure that you possess adequate knowledge of the Louisiana Revised Statutes (LRS) pertinent to the practice of engineering, LRS 37:681 - 37:703 (Licensure Law for Professional Engineers and Land Surveyors), and the Louisiana Administrative Code (LAC) 46:LXI, Subpart 1, Rules (Rules of the Board). These documents are also on our web page. **YOU MUST COMPLETE AND RETURN THE ANSWER SHEET FOR THIS EXAMINATION WITH YOUR APPLICATION.**
