

Professional Engineers and Land Surveyors, LR 7:648 (December 1981), amended LR 6:417 (June 1983), LR 11:363 (April 1985), amended by the Department of Transportation and Development, Professional Engineering and Land Surveying Board, LR 27:1035 (July 2001), LR 30:1718 (August 2004).

§2103. Licensure Status

Active Status—the licensure status which exists for a licensee of the board who has complied with all the licensure and licensure renewal requirements of the board.

Expired Status—the licensure status which exists for a licensee of the board who has failed to properly renew licensure as required in R.S. 37:697. A licensee in an *expired status* can no longer practice or offer to practice professional engineering or professional land surveying in Louisiana.

Inactive Status—the licensure status which exists for an individual licensee of the board who has chosen not to practice or offer to practice professional engineering and/or professional land surveying in Louisiana and who has indicated that fact on the board biennial licensure renewal form. This licensee can represent himself/herself to the public as a *P.E. Inactive*, or a *P.L.S. Inactive*, but cannot otherwise practice or offer to practice professional engineering and/or professional land surveying in Louisiana.

Retired Status—the licensure status which exists for an individual licensee of the board who has chosen not to practice or offer to practice professional engineering and/or professional land surveying in Louisiana and who has indicated that fact on the board biennial licensure renewal form. To qualify for the *retired status*, the licensee must be at least 70 years of age or have been a licensee of the board for at least 35 years. Unless the licensee is granted a waiver by the board, the renewal fee for the *retired status* shall be one-half of the current renewal fee for the *active status*. A licensee qualified for the *retired status* may be granted a waiver of this renewal fee if the licensee is at least 70 years of age, has been a licensee of the board for at least 35 years continuously, has never been subject to disciplinary action in any jurisdiction, has never committed any of the offenses described in R.S. 37:698(A)(3), (4) or (5), and is of good character and reputation. A licensee in a *retired status* can represent himself/herself to the public as a *P.E. Retired*, or a *P.L.S. Retired*, but cannot otherwise practice or offer to practice professional engineering and/or professional land surveying in Louisiana.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:688.

HISTORICAL NOTE: Promulgated by the Department of Transportation and Development, Board of Registration for Professional Engineers and Land Surveyors, LR 24:2151 (November 1998), amended by the Department of Transportation and Development, Professional Engineering and Land Surveying Board, LR 27:1035 (July 2001), LR 30:1719 (August 2004), LR 36:1034 (May 2010).

Chapter 23. Firms

§2301. General

A. The following rules with regard to firms providing or offering to provide professional services shall apply equally

to domestic or foreign firms, partnerships, associations, cooperatives, ventures, corporations, limited liability companies, limited liability partnerships, and any other entities, unless otherwise provided:

1. use of the term *professional services* in this Chapter will refer to either professional engineering services or professional land surveying services; and

2. use of the term *licensed professional* in this Chapter will refer to either a professional engineer or a professional land surveyor duly licensed in Louisiana.

B. A firm must be licensed with the board before it may provide or offer to provide professional services in the state of Louisiana.

1. A firm which has in its title the word *engineering* or *surveying* or any derivative thereof shall be construed to be offering to provide professional services and therefore must be licensed with the board before doing business in the state of Louisiana, unless it has in its title modifying or explanatory words which would, in their ordinary meaning, negate the inference of the professional practice of engineering or land surveying.

2. A firm may provide or offer to provide both professional engineering and professional land surveying services; provided, however, that the firm must be licensed separately as an engineering firm and as a land surveying firm, and the requirements of this Chapter will apply separately to providing or offering to provide professional engineering services and professional land surveying services.

3. A firm may provide or offer to provide both professional services and related licensed professional services, such as architecture and landscape architecture; provided, however, the firm must be licensed under and comply with the provisions of this Chapter.

C. Unless otherwise provided, sole proprietorships which bear the full name of the owner who is a licensed professional are exempt from the application of this Chapter. Such sole proprietorships are not required to be licensed as engineering or land surveying firms with the board. Sole proprietorships that do not bear the full name of the owner who is a licensed professional must be licensed with the board as an engineering or land surveying firm and must comply with all the provisions of this Chapter.

D. Joint ventures that provide or offer to provide professional services will not be required to be licensed as separate entities. Nevertheless, any firm (including those sole proprietorships otherwise excluded under §2301.C) that provides or offers to provide professional services in conjunction with its participation in a joint venture can do so only if it complies with the provisions of these rules. In addition, any supervising professional who participates in a joint venture shall be responsible for assuring that all professional services performed by the joint venture are rendered in conformity with the provisions of these rules.
