MESSAGE FROM THE CHAIRMAN

Miles B. Williams, PE

The true leader serves. Serves people. Serves their best interests". I use this quote because I think it epitomizes our two senior LAPELS Board Members – Dr. Norma Jean Mattei, PhD, PE and Mr. Richard Savoie, PE. They both have recently completed their sixth and final year of their term as Board members culminating in them sharing the Chair position for the past 12 months. Their leadership on the LAPELS Board has been a great inspiration to their fellow board members and the LAPELS staff. Their service to our State and our professions has had and will continue to have a tremendous positive influence in so many ways to so many people as it is the cornerstone of their professional lives.

To better understand their dedication, just ask a Board member or member of the staff how often they received emails from Mr. Savoie at 5:30 or 6:00 a.m. regarding applications, or enforcement actions or other important LAPELS matters. While most of us were sleeping, Mr. Savoie had spent an hour or two many early mornings working on LAPELS business before he began his work day where he then served the public again in his leadership position as Chief Engineer at LADOTD. In all interactions Mr. Savoie was steady, reasoned and kind. It was clear that at all times he was acting in the best interests of the folks he was called to serve; the citizens of Louisiana. Also Mr. Savoie has personally prepared his famous jambalaya dinners for more registrants and potential registrants than anyone in the history of our great State. Just so you know, he has done all of this without requesting compensation for virtually any of the hours he has spent in service to LAPELS.

For Dr. Mattei, ask a Board or staff member how many times they encountered Dr. Mattei facilitating a committee meeting, teleconference or interaction with a constituent group while managing her rigorous academic career and other professional duties. In fact, there were several times over the years where Dr. Mattei made the trip between a Baton Rouge Board meeting and the University of New Orleans two or three times in a two day period to attend to all of the important business of LAPELS while she was educating future engineers. Our first female LAPELS Board Member and Chair has been a remarkably steady influence with the Board and staff. During her service to LAPELS, Dr. Mattei has served as Chair of the Department of Civil Engineering (September 2009-June 2010 and July 2012 to present) and as Interim Dean of the College of Engineering (June 2010-June 2012) at the University of New Orleans. Also she has served in numerous leadership positions at a regional and national level for ASCE and NCEES and she recently was appointed by the President to the Mississippi River Authority. Hers is truly a story of leadership through service. And yes, Dr. Mattei also rarely requested the compensation that the law allows for the countless hours she has spent in service to LAPELS.

From time to time we reflect nostalgically about the "giants" of our profession whose shoulders we stand on as we fulfill our professional calling. I feel honored and blessed to have been able

to learn from, serve with and be lead by these two "giants" of our profession. The next time you see either Dr. Mattei or Mr. Savoie please join me, the LAPELS Board and the LAPELS staff in thanking them for their dedicated service to us all.

The Governor's Office recently released the name of our two new LAPELS Board appointees. From the Governor's Office press release of April 12:

Governor Bobby Jindal Announces Appointments to the Louisiana Professional Engineering and Land Surveying Board

BATON ROUGE - Today, Governor Bobby Jindal announced appointments to the Louisiana Professional Engineering and Land Surveying Board.

The Louisiana Professional Engineering and Land Surveying Board serves to regulate the practices of engineering and land surveying by issuing licenses and certificates to qualified applicants.

Appointments to the Louisiana Professional Engineering and Land Surveying Board:

Dr. Paul Hale, Jr., of Ruston, is employed at Louisiana Tech University as the Director of Industrial Relations in the College of Engineering and Science. Hale will be appointed to serve as a licensed engineer engaged in education, nominated by the Louisiana Engineering Society, as required by statute.

Christopher Knotts, of Baton Rouge, is the Administrator of Public Works, Water Resources & Hydraulics at the Department of Transportation. Knotts will be appointed to serve as a licensed engineer engaged in government work, nominated by the Louisiana Engineering Society, as required by statute.

Welcome to Dr. Hale and Mr. Knotts. The sitting Board and staff look forward to working with you both throughout your six year term. Thank you for your offer of service. Also thanks very much to all of the other nominees for these two positions. I was told by the LES leadership that the group of nominees for both of these positions represented the best our profession has to offer and that each nominee would make a great Board member.

Miles B. Williams, PE
Chairman

DISCIPLINARY AND ENFORCEMENT ACTIONS

Justin Owens and Tyson Ducote, Compliance Investigators

Justin Owens
Compliance Investigator

Tyson Ducote
Compliance Investigator

Recently, an unlicensed draftsman (describing himself as a “Site Development Designer and Project Manager”) prepared preliminary site development drawings at the request of the client of a professional engineering firm. The drawings were then presented to the professional engineering firm on behalf of the client, who was to make some use of the drawings in preparing complete civil engineering plans for permitting purposes.

Predictably, the drawings prepared by the draftsman erroneously ended up being submitted for permitting by the project contractor and, eventually, forwarded to the Board. A complaint review committee of the Board concluded that the absence of any language on the drawings which clarified (a) their intended purpose and (b) that they had been prepared by a non-licensee played a large role in the drawings mistakenly finding their way into the set of plans submitted for permitting.

The Board encourages all licensees to ensure that, until an engineering or land surveying document is complete and ready to be sealed, signed and dated by the licensee in responsible charge, it should clearly display the “Preliminary” disclaimer markings required by Section 2701(A)(4)(b)(i) of the Board Rules, which states, *“All preliminary documents, so marked in large bold letters, shall contain a statement that the documents are not to be used for construction, bidding, recordation, conveyance, sales, or as the basis for the issuance of a permit. Preliminary documents are not required to have the licensee’s seal, signature and date affixed, but must bear the name and licensure number of the licensee, and the firm’s name, if applicable.”*

The application of that preliminary work disclaimer to all incomplete documents, including documents prepared by sub-professionals, is the best way to prevent licensees from experiencing this unusual set of circumstances. To that end, licensees should consider making it their standard practice to require all documents prepared by sub-professionals to be submitted to them already bearing a clearly-worded statement that the documents were prepared by a non-licensee and are not to be used for engineering or land surveying purposes. Such documents should be promptly marked by licensees with the appropriate preliminary work disclaimer until they are complete.

The Board continues to investigate alleged violations of the laws and rules which regulate the practice of engineering and land surveying in Louisiana. Substantiated violations

result in disciplinary or enforcement action being taken either through a Consent Order or by Board Decision following a formal hearing at which the respondent is adjudged guilty of one or more violations. Below is a summary of the disciplinary/enforcement actions taken by the Board since the previous issue of the Journal.

UNLICENSED OFFER AND/OR PRACTICE OF ENGINEERING OR LAND SURVEYING:

Robson Forensic, Inc.,

an unlicensed firm which subsequently became licensed effective April 13, 2011 (EF-4790), was subject to enforcement action by the Board for practicing and/or offering to practice engineering and using the words “engineer”, “engineering” or any modification or derivative thereof in a person’s name or form of business or activity in Louisiana without proper licensure in violation of La. R.S. 37:681 and 37:700(A)(1) and (7). Between 2009 and March 2011, the firm practiced and/or offered to practice engineering and used the word “engineers” in conjunction with its name and business in Louisiana without proper licensure. The firm has entered into a Consent Order with the Board, wherein it admitted to the violations of the above laws/rules and agreed to pay a fine of \$2,500; to pay administrative costs of \$1,521.14; and to the publication of the Consent Order on the Board’s website, the printing of a summary of this matter by name in this publication, and the reporting of this matter by name to NCEES.

An unlicensed firm which subsequently became licensed effective February 1, 2012 was subject to enforcement action by the Board for practicing and/or offering to practice engineering in Louisiana without proper licensure in violation of La. R.S. 37:681 and 37:700(A)(1). Between November 2011 and January 2012, the firm practiced and/or offered to practice engineering in Louisiana without proper licensure. The firm has entered into a Consent Order with the Board,

wherein it admitted to the violations of the above laws/rules and agreed to pay a fine of \$250; to pay administrative costs of \$639.66; and to the publication of the Consent Order on the Board's website and the printing of a summary of this matter without name in this publication.

Structures America Innovative Engineering, PLC, an unlicensed firm which subsequently became licensed effective September 10, 2012 (EF-5144), was subject to enforcement action by the Board for practicing and/or offering to practice engineering and using the words "engineer", "engineering" or any modification or derivative thereof in a person's name or form of business or activity in Louisiana without proper licensure in violation of La. R.S. 37:681 and 37:700(A)(1), (7) and (9), *to wit* LAC Title 46:LXI§2301(B)(1). In 2011, the firm practiced and/or offered to practice engineering and used the word "engineering" in its name and in conjunction with its business in Louisiana without proper licensure. The firm has entered into a Consent Order with the Board, wherein it admitted to the violations of the above laws/rules and agreed to pay a fine of \$2,500; to pay administrative costs of \$251.62; and to the publication of the Consent Order on the Board's website, the printing of a summary of this matter by name in this publication, and the reporting of this matter by name to NCEES.

AIDING OR ASSISTING ANOTHER PERSON IN VIOLATING LAWS/RULES OF THE BOARD:

Syam S. Mannava, PE, a licensed engineer (PE-31413), was subject to disciplinary action by the Board for aiding or assisting another person in violating the laws and/or rules of the Board in violation of La. R.S. 37:698(A)(12). In 2011, Mr. Mannava aided or assisted Structures America Innovative Engineering, PLC in practicing and/or offering to practice engineering and using the word "engineering" in its name and in conjunction with its business in Louisiana without proper licensure. Mr. Mannava has entered into a Consent Order with the Board, wherein he admitted to the violations of the above laws/rules and agreed to pay a fine of \$100; to pay administrative costs of \$251.62; and to the publication of the Consent Order on the Board's website, the printing of a summary of this matter by name in this publication, and the reporting of this matter by name to NCEES.

MULTIPLE LAWS AND/OR RULES VIOLATIONS:

Lam T. Nguyen Sr., PE, a licensed engineer (PE-23851), was subject to disciplinary action by the Board for (a) noncompliance with the Board's continuing professional development requirements in violation of La. R.S. 37:698(A)(6), *to wit* LAC Title 46:LXI§3105(A)(2), §3115, §3117 and §3119 and (b) fraud, deceit, material misstatement or perjury, or the giving of any false or forged evidence in applying for a renewal license, in violation of La. R.S. 37:698(A)(1). In 2009 and 2011 Mr. Nguyen submitted to the Board his Louisiana professional engineer license renewal invoices which confirmed that he had met the Board's CPD requirements, even though he had failed to earn the required minimum of eight CPD hours in Life Safety Code, building codes and/or Americans with Disabilities Act Accessibility Guidelines. Mr. Nguyen has entered into a Consent Order with the Board, wherein he admitted to the violations of the above laws/rules and agreed to pay a fine of \$750; to pay administrative costs of \$821.34; to successfully complete the Board's online Louisiana Laws and Rules Quiz; to successfully complete the Board's online Louisiana Professionalism and Ethics Quiz; to earn a minimum of eight CPD hours in Life Safety Code, building codes and/or Americans with Disabilities Act Accessibility Guidelines for the biennial licensure renewal period of April 1, 2009 to March 31, 2011 and provide to the Board an up-to-date, complete Professional Development Activity Log with all supporting documentation; and to the publication of the Consent Order on the Board's website, the printing of a summary of this matter by name in this publication, and the reporting of this matter by name to NCEES.

UPCOMING BOARD MEETINGS

PRESIDENTIAL PRIVILEGE

Alan D. Krouse, PE

Once again my time as your State President has come to an end. It is hard to compare the two terms I have had the honor to serve as your President but if there is one topic that stands out it would be how much more we now get involved in the legislative process. Thanks to Ron, Brenda, Chris and Gerald we are now becoming more proactive in the legislation that affects Engineers. This year when the Governor rolled out his tax proposal at first glance it seemed to be placing a heavy burden on taxing professional services with lawyers excluded. Also how this was going to be collected was unclear. We had a meeting to discuss our strategy; however, as you now know, the Governor pulled his tax proposal and he is letting the legislature come up with a plan to fix the deficit problem. As professionals we all know the value of education and we want our universities to be as great as any in the country. This takes money but the Legislature continues to cut higher education. LES has numerous scholarships available to help students and this is one area that we are making a difference. However, we need to start assisting our Engineering Departments so they can provide all

the components necessary in order to provide the students with the best teachers and facilities. I know a few engineering companies have established professorships and this is a great way to support the faculty. I encourage all to get involved with this effort.

Alan D. Krouse, PE
Louisiana Engineering Society President

I mentioned scholarships above and with the retirement of the building debt we will now have more funds available for scholarships. In my first term we were just starting the fund raiser to pay off this debt and here we are with the debt paid, I never would have predicted it. Thanks once again to all! Since my last message we have had two of our members receive the membership classification as NSPE Fellow. Congratulations to Edgar Benoit of the Bayou Chapter and Steve Brown of the Shreveport Chapter. They have spent many hours in support of this organization and NSPE. Additionally there have been two new members appointed to serve on LAPELS. Governor Jindal recently appointed Chris Knotts and Dr. Paul Hale. Congratulations to Chris and Dr. Hale. I would like to thank Richard Savoie and Dr. Norma Jean Mattei for serving on the Board and their time and dedication to the profession. LES is always appreciative of the opportunity to work with LAPELS on issues that affect Licensure.

As I close I would like to thank the members of this year's Board for their support and giving up the time to make Engineering a great profession. Thanks also to Brenda, Cathy and Brittany for all they do to make the year successful. Jason Thornhill will

be sworn in as President in June and I know LES will be in good hands and I look forward to working with him. I hope to see all of you in San Destin at our annual conference.

MEET JASON THORNHILL

Jason T. Thornhill, PE
*Incoming Louisiana
Engineering Society President*

Jason T. Thornhill, PE, incoming President, has been an active member of LES since 1992. He is currently serving on the LES State Board as First Vice-President, having also served as Second Vice-President, State Secretary-Treasurer and as a State Director for two years. Additionally, he is a past President, PEPP Chairman and Mathcounts Coordinator of the Monroe Chapter. He has been actively involved in most Regional Mathcounts competitions since 1992. Jason also served in the Louisiana Engineering Foundation as Secretary-Treasurer in 2010, as well as, in the American Council of Engineering Companies of Louisiana (ACEC/L) as a member of the Board of Governors from 2004-2006 and ACEC/L representative on the Louisiana Engineers Selection Board in 2005.

A 1992 cum laude graduate of Louisiana Tech University with a Bachelor of Science Degree in Civil Engineering, Jason is a registered Professional Engineer in the states of Louisiana, Texas, Mississippi, Arkansas, Florida and North Carolina. He is a Vice-President of the firm of Lazenby & Associates, Inc., a general civil consulting firm in West Monroe, Louisiana,

where he serves as project manager for civil/site development projects. Jason holds professional memberships in the American Society of Civil Engineers, National Society of Professional Engineers and the American Council of Engineering Companies of Louisiana in addition to LES. He is a past recipient of the Waldemar S. Nelson President's Award and a graduate of the Monroe Chamber of Commerce's Leadership Ouachita program.

A native of Forest, Louisiana, Jason currently resides in West Monroe with his wife, Paula, who is the Director of Extended Learning and Quality Enhancement for the University of Louisiana - Monroe, and their son Reagan, a Senior at West Monroe High School. He and his family are members of the First United Methodist Church of Monroe.

- 10 Committee Budget Requests due to State Office
- 17 Early Registration Deadline for LES Annual Meeting

June 2013

- 8 LES & LEF Board Meeting
– Sandestin Resort, Destin, FL
- 9-12 Statewide Annual Meeting & Multi-State Conference
– Sandestin Resort, Destin, FL

July 2013

- 17-21 NSPE Leadership Conference & Annual Meeting
– Minneapolis, MN

BATON ROUGE CHAPTER

By Michael Thomassie, PE

It is a great time of year to be an active member of the Baton Rouge Chapter with the annual crawfish boil and golf tournament both taking place in April.

Proceeds from the W.A. Wintz, Jr. Memorial golf tournament provide much needed funding for the scholarships that the Baton Rouge Chapter offers every year. It also provides a great opportunity for our members to get together.

The 4th Annual Crawfish Boil is for LES Members and those that have recently taken the PE and FE exams in Baton Rouge. This event allows for test takers to network with members

in a causal setting and has been a great success in the past.

The Baton Rouge Chapter of LES has enjoyed a great year. As outgoing president, I wanted to thank the officers for going above and beyond for the betterment of the Chapter. It is truly a team effort and I appreciate all of their cooperation and enthusiasm throughout the year. Serving as a Chapter officer was an honor and I value the things I have learned and the relationships established throughout the process.

LAKE CHARLES CHAPTER

By Byron Racca, PE

With the majority of the 2012/2013 LES calendar year in the books, the Lake Charles Chapter has once again fulfilled its commitment as active and supportive partner of the local community.

The Annual Lake Charles Mathcounts competition was held on Saturday, February 23, 2013 at McNeese State University and generated strong attendance from various area schools. Approximately eighty-nine (89) students participated in the event (11 teams). In the team placing, FK White took home 1st place, with Our Lady Queen of Heaven coming in 2nd, followed by Deridder Junior High in 3rd. Mr. Gregory LaBorde, OLQH, took home 1st place in the individual completion along with a \$1,000 scholarship. Mr. Jason Dong took home 2nd (\$750 scholarship) and Mr. Timothy Curol took home 3rd (\$500 scholarship). I would like to take this opportunity to thank all sponsors, volunteers and event organizers for making this event something that these students can enjoy while promoting math as a fun and constructive activity of their daily lives.

Engineering Week was nationally observed February 18th to February 22th but due a scheduling conflict, McNeese State University and the Lake Charles LES Chapter held annual E-Week activities the week of February 25th to March 1st.

E-Week activities included the annual open house event held by McNeese that invites local students and their guests to tour the department while participating in activities that promote the engineering profession. The annual E-Week banquet was held on Thursday, February 28, 2013 at Reeves Uptown Catering and hosted approximately 90 guests which included McNeese faculty and students along with their respective family and friends. The event is held to honor engineering students and faculty for their accomplishments in striving for excellence in their respective fields.

The Lake Charles Chapter hosted a licensing ceremony on March 12, 2013 at Pat's of Henderson Restaurant for all new registrants within the Lake area. The Lake Charles Chapter was honored to present four (4) new licensees their Professional Engineering License. The ceremony was held in an effort to honor and recognize the accomplishments these individuals have achieved.

On April 9, 2013 the Lake Charles Chapter welcomed officials from the Calcasieu Parish Police Jury to discuss recent changes to area Flood Plain Regulations and Restrictions.

NEW ORLEANS CHAPTER

By Wayne Westerfield, PE

The New Orleans Chapter held its Engineering Induction Ceremony honoring new Engineering Interns and Professional Engineers at our March meeting. Congratulations to all the new PE/EIs on your achievement and we wish you luck in the future. A special thanks goes out from the New Orleans Chapter to Norma Jean Mattei for presenting her much anticipated annual Ethics Talk.

April 12 will be our second field trip of our program year to the Stennis Facility. This will be an exciting behind the scenes tour of the region's major contributor in space exploration. Our final meeting of the program year is on May 17. There

will be a presentation by Boeing as well as chapter elections.

Finally, we want to thank all the people who made this chapter's year a success. A lot of work was done by many individuals to make Mathcounts, the golf tournament and our meetings a success. Again, thank you for all your help.

The achievements attained though Mathcounts, the golf tournament, and all our meetings, is a testament to all of the hard working individuals in the NOLA LES.

MONROE CHAPTER

By Joey Riggin, PE

The Monroe Chapter is wrapping up another successful year thanks to our membership and officers. I would like to thank all of the officers for their assistance in planning and executing all of the events, and also the membership for attending the monthly meetings.

The past few months have been busy for the Monroe Chapter. We had our January meeting at The Olive Garden in Monroe. We had 27 in attendance to hear Mr. Jim Allen give a presentation entitled "How to use ASCE Standard 38-02 to Reduce Risk for Design on Construction Projects that Excavate Underground." Also, many of our members attended the 2013 JESC that was held on January 23rd & 24th in Lafayette. Five (5) members of the Monroe Chapter were recognized for their professional accomplishments at the Honors and Awards Banquet that was held in conjunction with the JESC. I would like to recognize these individuals; Joshua D. Hays, PE was awarded the F. Hugh Coughlin Young Engineer Award, Walter Carpenter, Jr., PE received the Leo M. Odom Award for Service to the Profession, Kevin E. Crosby, PE, P.L.S. received the Andrew M. Lockett Medal for Civic Activities, Jeffrey Pike, PE received the Engineering Faculty Professionalism Award, and the late Dr. Bobby Price, PE, F.NSPE was awarded the Lifetime Achievement Award that his wife Patsy Price was presented at our March Chapter Meeting.

Our February meeting was held at Catfish Cabin in Monroe. We had 20 in attendance to hear Mr. Johnny Leggett give a presentation on "Compressed Natural Gas Technology." Also, on February 23rd the Monroe Chapter held its Regional MATHCOUNTS competition at Ouachita Parish Junior High School. A special thanks goes to Jim Ellingburg, PE our Mathcounts Coordinator, and all of the other members who volunteered to help make the event a success.

The Monroe Chapter Licensing Ceremony was held on March 14th at Catfish Cabin in Monroe. Brenda Gajan, LES Executive

Director and Kevin E. Crosby with LAPELS were at the meeting to present the certificates to the new licensees. We had two (2) licensees that were presented with their PE license, Henry Shuler, PE and Lee Wallace, PE. At the March meeting, we also presented Patsy Price with the Lifetime Achievement Award that Dr. Bobby Price was awarded. We had a great turnout for the meeting with 29 in attendance. Scott Phillips, PE, P.L.S. with Tensar International, was our guest speaker. He presented "What are Geogrids & How do you Design with them."

Our April meeting was held at Louisiana Tech University. Our guest speaker was Dr. Arun Jaganathan, Assistant Professor of Civil Engineering at Tech. His presentation was entitled, "Advanced Electromagnetic Sensors for Condition Assessment of Buried Infrastructure." We also voted on our officers for the upcoming year at the meeting. The 2013-2014 officers will be; Michael Phippen, PE – President, Jim Ellingburg, PE – 1st Vice President, Brant Jones, E.I. – 2nd Vice President, and Brad Anzalone, E.I. – Secretary / Treasurer.

Planning has begun for the Tri-State Engineering Society Meeting that will be held June 9th-11th at the Sandestin Resort in Destin, Florida. I would like to encourage all of our members to attend this event. The conference will once again offer numerous continuing education opportunities. It is also a great place to take your family for vacation.

In closing, I would like to thank all of our members for the opportunity to serve the Monroe Chapter as president. It has truly been an honor to serve the chapter. As the outgoing president, this will likely be my last chapter update. Michael Phippen, PE will pick up where I leave off, and continue the success that the Monroe Chapter has had in the past.

LAFAYETTE CHAPTER

By Kim Hitt, PE

LES Lafayette held our joint banquet celebration to honor the new professional licensees and to celebrate District Mathcounts' winners on Tuesday, March 19th, at the Petroleum Club. We had an abundance of support, with attendance from LES members including LES State President Alan Krouse and LEF State President Chris Richard, as well as Executive Director Brenda Gajan, family and friends of the recipients. Jim Bowie, PhD, PE presided over a wonderful licensing ceremony. Many new Professional Engineers and Engineer Intern Licensees from our area were recognized for their noble achievement and awarded their certificates.

Team and individual students, and their coaches, from Paul Breaux Middle School, Acension Episcopal School and Episcopal School of Acadiana were recognized for winning our district and representing us at the state Mathcounts competition. Mike Smith, our current and past Mathcounts District Coordinator did a great job, as we had another successful Mathcounts.

Plans are being made for our last meeting for the year, and where we will also present local winners with LEF state scholarships.

MATHCOUNTS COMPETITION

Becky Johnson, PE

The State Mathcounts Competition for 2013 was held in Pineville on March 15, 2013. There were 23 teams that participated from all around the state, totaling 105 students.

The schools are listed below:

A.E. Phillips Laboratory School (Ruston, LA)
 Alexandria Country Day School (Alexandria, LA)
 Ascension Episcopal School (Youngsville, LA)
 Boyet Junior High (Slidell, LA)
 Caddo Middle Magnet (Shreveport, LA)
 Cedar Creek School (Ruston, LA)
 Cope Middle School (Bossier City, LA)
 DeRidder Junior High School (DeRidder, LA)
 Episcopal School of Acadiana (Broussard, LA)
 F.K. White Middle School (Lake Charles, LA)
 Glasgow Middle School (Baton Rouge, LA)
 Grace Christian (Alexandria, LA)
 Greenacres Middle School (Bossier City, LA)
 Haynes Academy (Metairie, LA)
 Houma Junior High (Houma, LA)
 Lake Castle Private School (Madisonville, LA)
 Lake Castle Private School (New Orleans, LA)
 NSU Middle Lab (Natchitoches, LA)
 Ouachita Parish Junior High (Monroe, LA)
 Our Lady Queen of Heaven School (Lake Charles, LA)

Paul Breaux Middle School (Lafayette, LA)
 Raymond K. Smith Middle School (Luling, LA)
 St. Jude School (Baton Rouge, LA)
 St. Mark's Cathedral School (Shreveport, LA)
 St. Thomas More (Baton Rouge, LA)
 Southfield School (Shreveport, LA)
 Tioga Junior High School (Ball, LA)

There were a couple of fun rounds of math problems that were done.

The first was a Mathbee round. Each team competes against each other by buzzing in with the correct answer to a problem flashed up on a screen. The winner of this round was Glasgow Middle School.

The second was a Countdown round for the top 12 individuals. The students compete against each other in a bracketed format. They buzz in with the correct answers to problems flashed up on a screen.

Top Six Individuals

1st Place	Orianne Luo	Glasgow Middle School
2nd Place	Richie Wakefield	Grace Christian School
3rd Place	Mason Guillot	Glasgow Middle School
4th Place	Chi Cao	Glasgow Middle School
5th Place	Carol Hou	Glasgow Middle School
6th Place	Max Pan	Glasgow Middle School

Top Six School Teams

1st Place	Glasgow Middle School (Baton Rouge area)
2nd place	Grace Christian School
3rd Place	St. Thomas More Catholic School
4th Place	Lake Castle Private School, Madisonville (New Orleans area)
5th Place	Haynes Academy for Advanced Studies (New Orleans area)
6th Place	Boyet Junior High School (New Orleans area)

The National Competition is comprised of the students from all 50 States, U.S. Territories, The U.S. Department of Defense and the U.S. State Department. The National Competition will be held in Orlando, FL on May 10-13, 2012, and will be nationally televised on ESPN.

The top 4 students, along with coach Joan Moroney from Glasgow Middle School will move on to represent Louisiana at the national MathCounts competition in Washington DC the weekend of May 11th.

Congratulations to all of these students and to all of the participants.

Mathcounts could not be put on without the dedicated help of many volunteers and support from the community. A big thank you to the following volunteers and sponsors:

RESORT AMENITIES

The Village of Baytown Wharf is reminiscent of a 1920s fishing village, with hints of the Deep South, Louisiana, Old Florida and the Keys. The wharf is located on 28 acres of pristine, bay front property with 42 shops including restaurants, galleries and nightclubs. Complimentary amenities include beachside attendants who will carry your things down to the beach, an hour of tennis each day, canoe or kayaking, bikes, boogie boards and fishing in their stocked, freshwater lakes. The golf tournament will be played on the Links Golf Course, and Kid Zone offers tons of fun for children ages 4-12.

The Chartered Dolphin Cruise is a 2-hour narrated cruise through the Destin Harbor, through the East Pass, into the Gulf of Mexico and into the Bay. See dolphins in their natural habitat and enjoy the scenic Emerald Coast shoreline. You may bring your own drinks and snacks; no glass bottles are permitted. Boat features a glass bottom viewing area, restrooms, and an air conditioned cabin.

LOUISIANA ENGINEERING FOUNDATION

By: Chris Richard, PE

Earlier this year, the Foundation Board, in consultation with previous Board officers, unanimously voted to change the name of the building from the "Louisiana Engineering Center" to the "**Louisiana Engineering and Surveying Center**"

The Board felt that the new name better reflects what the building actually is to our community, the center of Engineering and Surveying in Louisiana. The building currently houses the Louisiana Engineering Society (LES), American Council of Engineering Companies/Louisiana (ACEC/L), the Louisiana Society of Professional Surveyors (LSPS) and the Louisiana Professional Engineers and Surveyors Board (LAPELS). It's clear from this list that the building is not only the center of engineering in Louisiana, but also surveying.

Thanks to the generous support of some in the engineering community, the Louisiana Engineering Foundation was able to present eight very deserving students with scholarships to help them to achieve their goal of becoming an engineer. The various scholarships were presented to the students during recent monthly LES Chapter meetings. The scholarship recipients this year were:

- **Aaron Lucas, LA Tech**
James and Margaret Mohr Civic Engineering Scholarship - \$2,200.00
- **Seth Louviere, LA Tech**
LEF- Civil Engineering Scholarship - \$500
- **Brandon Lienhop, LA Tech**
Waldemar Nelson Engineering Scholarship - \$1,000.00
- **RoseAnn Huynh, Tulane University**
NSPE Hurricane Relief Engineering Scholarship/New Orleans, Bayou - \$720.00
- **Todd Foster, LA Tech**
Charles L. Eustis, PE Engineering Scholarship - \$500.00
- **Callie Clement, Tulane University**
NSPE Hurricane Relief Engineering Scholarship/Lake Charles, Lafayette - \$720.00
- **Kylan Douglas, Southern University**
CSRS Scholarship for Minority Student in Civil Engineering - \$500.00
- **Seth Stansbury**
Ernest P. Breaux Electrical, Inc. Scholarship - \$500.00

Ground Breaking

Pictured left to right: Warren Wilder, Brenda Gajan Waldemar Nelson, Leta Bueto, Richard Primeaux, Glen Kent, Bren Kramer, Ron Rodi, Mel Harrison and Wayne Hebert.

The ground breaking for the Louisiana Engineering Center was held back in May, 1998, and on November 4, 2012, we made our final payment on the mortgage. On April 19, 2013, the Foundation hosted a reception at the newly named Louisiana Engineering & Surveying Center to celebrate paying off the mortgage on the building. Included (*on the next page*) are pictures of the reception.

Now that the building is paid off, we can concentrate on funding the endowed scholarships that have been established as part of the debt retirement program. So far we have \$300,000 endowed in 18 scholarships. We will begin awarding all 18 scholarships next year.

We would like to thank all those that have contributed to the Foundation and our goal of paying off the Louisiana Engineering Center and establishing endowed scholarships for the students in Louisiana. If you would like to contribute to the Foundation building fund or any of these scholarships, please visit the LES website for a copy of the donation form or contact the LES office at 225.924.2021.

LOUISIANA ENGINEERING FOUNDATION RECEPTION

ENGINEERING'S IN THE BLOOD

Engineering is a career of service. The drive to serve the public by using one's analytical and creative talents may well be imparted to younger generations by example. However, it seems in one Louisiana family, it may just run in the blood.

Chris Richard, LEF President and CEO/Chief Engineer with Domingue, Szabo & Associates consulting engineers in Lafayette, was recently recognized at the Joint Engineering Society meeting for his selection as the recipient of the Dudley Hixson-Bobby Price National Professional Achievement Award by the Louisiana Engineering

Society. He was accompanied by his father, Don Richard, also a professional civil engineer and former president of Domingue, Szabo & Associates, and also his daughter, Sarah Richard, an engineer intern with this same firm. The three came together to commemorate three generations of engineering at Domingue, Szabo & Associates. All three are graduates of the University of Louisiana at Lafayette.

Hopefully we can all encourage our children to seek rewarding careers in engineering to promote a life of service that protects and enhances quality of life.

THE SPEC SHEET

Daniel E. Mobley, CAE, *Executive Director*

American Council of Engineering Companies of Louisiana

Daniel E. Mobley, CAE

Last month in his article, American Council of Engineering Companies of Louisiana (ACEC/L) President Hunter Lancaster referred to our staff as the “eyes and ears” of our organization in Louisiana and Washington. We also serve as its voice, just as ACEC/L is the voice of consulting engineering firms throughout Louisiana. And sometimes, we may have to raise our voice a bit to be heard.

ACEC/L met with state Revenue Secretary Tim Barfield to express the ACEC/L's opposition to Gov. Bobby Jindal's plan to impose sales taxes on engineering services to make up for a proposed elimination of personal and corporate income taxes. Apparently, enough people and organizations let their voices be heard to convince the governor to abandon that plan. The bad news is that no one knows how the legislature will respond to the governor's position that he still wants to eliminate income taxes. You can be certain that ACEC/L will oppose any attempt to revive the idea of adding sales tax to engineering services.

The tax debate isn't the only issue ACEC/L is monitoring. We are trying again this year to get the state to modify its definition of what a “public employee” is. Under current Ethics Board rulings, any design professional working either as a contractor or sub-contractor for a governmental entity is considered a public employee. This can have serious, detrimental effects to our member firms as such a designation could make engineers fall under the same ethics regulations as public employees but without the benefits public employees (i.e., retirement, health care benefits, etc.) normally would enjoy. This issue has been publically misrepresented as an attempt by design professionals to skirt ethics law; we simply want to be treated fairly under the law.

ACEC/L also recently publicly expressed its disappointment that the governor failed to mention in his opening legislative remarks that transportation funding is an area of priority. ACEC/L, in a joint statement with the Louisiana Good Roads and Transportation Association and the Louisiana section of the American Society of Civil Engineers, pointed out that Louisiana's transportation infrastructure is woefully underfunded, despite recent infusions of cash from past budget surpluses and federal stimulus programs. While none of us want to pick a fight with the governor, the leadership in these organizations believes it is necessary to speak up, especially on matters that affect our business interests and the safety of the public.

Meanwhile, our Transportation Committee is working on a number of issues that impact our members. Maj. Gen. John Basilica of HNTB is leading that effort and working closely with Janice Williams of DOTD to study five areas: procurement, contracting, contract administration and management, QA/QC and claims. Working groups consisting of ACEC/L members and DOTD personnel are drilling down in each area with the goal of developing recommendations that will be considered by DOTD management. Throughout this process, DOTD has demonstrated a true willingness to work with the private

sector to resolve issues related to contracts. We believe our member firms' reputation for responsible engagement through ACEC/L strengthens those public-private bonds.

It is impossible in this short space to fully explain all the activities in which we are involved, but that brings me to one more important item: I urge you to sign up for the Deep South Convention, which is our Tri-State Annual meeting with ACEC Mississippi and Alabama. This year's convention will be held July 11-13 at the Sandestin Golf and Beach Resort in Sandestin, Florida. This is an invaluable opportunity to catch up on the latest issues, compare notes with colleagues and enjoy a world-class resort. You can contact Janet Tomeny at 225-927-7704 or email Janet at Jtomeny@acecl.org for more information.

Perhaps there was a day, long ago, when an engineering firm could be successful by concentrating only on technical prowess, good management and sound business practices. Today's firms face serious challenges that require us to be fully engaged in multiple arenas, especially in government and politics. Decisions and proposals in the political arena are increasingly encroaching on our livelihoods, and ACEC/L is working fulltime to make sure your voice is being heard.

Lastly I would ask that you consider supporting our ACEC/PAC so that the staff in Washington, DC can continue their work. We support those legislators who support the legislation that affects our firms.

BALLOT TO ELECT LES MEMBERS

Act 721 passed in the 1975 Legislature amended Chapter 10 to Title 38 of the Louisiana Revised Statutes of 1950 by adding thereto a new Part VII, Selection of Professional Services for Public Contract. Three Boards – Architect, Engineer and Landscape Architect Selection – are authorized under this Act. Each board selects persons or firms to perform certain professional services for public contract.

The Act refers to the Louisiana Engineering Society, specifying the following: The Louisiana Engineers Selection Board shall be composed of six members. Two members shall be named in an election conducted by the Louisiana Engineering Society at which all properly licensed engineers residing in the State of Louisiana may vote for positions to be filled. LES has two positions to fill this year, one term ending June 30, 2014, and one ending December 31, 2014.

The LES Nominating Committee nominates Ali M. Mustapha, P.E. for the July 1st position and Andrew Zagars, P.E. for the January 1st position.

Each Louisiana Registered Professional Engineer working and living in the State is eligible and urged to vote.

Space on the ballot is provided for write-in candidates. A write-in candidate must be a LA registered Professional Engineer and must have agreed to serve if elected. No employee or stockholder shall be eligible to receive agency contracts during the term of his service, and for a period of six months thereafter.

LES ENGINEERS SELECTION BOARD BALLOT

1. Mark and return to LES, 9643 Brookline Ave., Ste. 116, Baton Rouge, LA 70809, by **June 30, 2013**. Late ballots will not be accepted.

2. Make sure your name and address are on the envelope that forwards the ballot to LES. Ballot signature is not required.

Vote for One Candidate in Each Position

POSITION ONE

(Term July 1, 2013 – June 30, 2014)

☐ Ali M. Mustapha, PE

☐ _____
For Write-in Candidate

POSITION TWO

(Term January 1, 2014 – December 31, 2014)

☐ Andrew Zagars, PE

☐ _____
For Write-in Candidate
