**Old Business/New Business**

The Board unanimously approved the motion made by the Structural Engineer Designation Ad Hoc Committee to approve the following ruling on Dr. Mattei’s Petition for Declaratory Order and Ruling:

**RULING ON PETITION FOR DECLARATORY ORDER**

1. On January 16, 2014, Norma Jean Mattei, Ph.D., P.E. (“Petitioner”) filed with the Louisiana Professional Engineering and Land Surveying Board (the “Board”) a petition for declaratory order and ruling pursuant to LAC Title 46:XLI§727.

2. Petitioner seeks a declaratory order as to whether a professional engineer who is competent to practice structural engineering, but who is not listed by the Board in the discipline of structural engineering, is permitted to refer to himself/herself as a “Structural Engineer” in Louisiana.

3. La. R.S. 37:693(A)(2) provides as follows:

   Professional engineers will be issued licenses by the board as a professional engineer. The board shall list a professional engineer in one or more of the disciplines of engineering approved by the National Council of Examiners for Engineering and Surveying to signify the area in which the engineer has demonstrated competence pursuant to education, experience, and examination. The professional engineer may use a stamp that designates the discipline of engineering in which the board has listed the engineer or a stamp that identifies the licensee as a professional engineer.

4. La. R.S. 37:698(A) provides, in pertinent part, as follows:

   The board shall have the power to take disciplinary action against any licensee … found by the board to be guilty of any of the following acts or offenses:

   (2) Any fraud, deceit, … material misrepresentation, gross incompetence, or gross misconduct in the practice of engineering …

   (6) Violation of any provision of this Chapter or any rules or regulations adopted and promulgated by the board.

   (11) The use of any advertising or solicitation which is false or misleading.

   (13) Knowingly making or signing false statements, certificates, or affidavits in connection with the practice of engineering …

   (18) Practicing or offering to practice engineering … when not qualified.

5. - 2 -
LAC Title 46:LXI§105(A) defines “fraud, deceit or misrepresentation” as: intentional deception to secure gain, through attempts to deliberately conceal, mislead, or misrepresent the truth with the intent to have others take some action relying thereupon, or any act which provides incorrect, false, or misleading information, upon which others might rely.

6. LAC Title 46:LXI§105(A) defines “gross incompetence” as: the practice of engineering ... by a licensee who is either incapable of exercising ordinary care and diligence or who lacks the ability and skill necessary to properly perform the duty he/she undertakes. (The practice of engineering in an area other than that in which the licensee has been issued a license will not be considered as evidence of gross incompetence, provided the licensee is otherwise qualified by education or experience.) Examples of practice which the board may consider to constitute gross incompetence include but are not limited to:
   a. the undertaking of assignments other than those for which the licensee is qualified by education or experience in the specific technical fields involved; or
   b. the affixing of the licensee’s signature or seal to any engineering ... plan or document dealing with the subject matter in which the licensee lacks competence by virtue of education or experience.

7. LAC Title 46:LXI§105(A) defines “gross misconduct”, in pertinent part, as the practice of engineering ... by a licensee who performs any acts, causes any omissions or makes any assertions or representations which are fraudulent, deceitful, or misleading, or which in any manner whatsoever discredit or tends to discredit the profession[] of engineering ... Gross misconduct as used herein shall also include any act or practice in violation of the board’s rules of professional conduct ... or use of seals.”

8. LAC Title 46:LXI§1901(A) provides as follows:
   The licensure law provides that professional engineers will be issued licenses by the board as a Professional Engineer and that the board shall list a professional engineer in one or more of the disciplines of engineering approved by the National Council of Examiners for Engineering and Surveying (NCEES).

9. LAC Title 46:LXI§2505 provides, in pertinent part, as follows:
   A. Licensees shall perform services only in the area of their competence.
   B. Licensees shall undertake assignments only when qualified by education or experience in the specific technical fields of engineering ... involved.
   C. Licensees shall not affix their signatures or seals to any plans or documents dealing with subject matters in which they lack competence. ... . D. Licensees may accept an assignment outside of their areas of competence to the extent that their services are restricted to those phases of the project in which they are qualified, and to the extent that they are satisfied that all other phases of such project will be performed or supervised by licensed, qualified associates, consultants, or employees, in which case they may then seal, sign and date the documents for the total project.

10. LAC Title 46:LXI§2509 provides, in pertinent part, as follows:
    A. Licensees shall avoid improper solicitation of professional employment or services.
    B. Licensees shall not falsify or permit:
       1. misrepresentation of the licensee or any associate’s academic or professional qualifications

11. LAC Title 46:LXI§2511 provides, in pertinent part, as follows:
    A. Licensees shall not make exaggerated, misleading, deceptive or false statements or claims about professional qualifications, experience or performance in brochures, correspondence, listings, or other public communications.
    B. The prohibitions listed in Subsection A include, but are not limited to:
       1. the use of statements containing a material misrepresentation of fact;
2. omitting a material fact necessary to keep the statement from being misleading;
3. the use of statements intended or likely to create an unjustified expectation; and
4. the use of statements containing a prediction of future success.

ORDER

After due consideration of the petition for declaratory order and ruling filed by Petitioner and after discussion by the Board during its meeting on May 19, 2014:

IT IS THE RULING of the Board that:

12. A professional engineer licensed by the Board is permitted to describe his/her structural engineering expertise or experience if that is an area of his/her competence (e.g., "expert in structural engineering", "years of structural engineering experience" or some other similar descriptor), even if he/she is not listed by the Board in the discipline of structural engineering.

13. However, only a professional engineer listed by the Board in the discipline of structural engineering is permitted to refer to himself/herself as a "Structural Engineer" or "S.E." or to otherwise use the designation "Structural Engineer" or "S.E." in reference to himself/herself in Louisiana.

The Board unanimously approved the motion made by the ad hoc committee, comprised of Mr. Crosby, Mr. Thompson and Mr. Knotts, to deny the request of Ray A. Davezac to reinstate his revoked professional engineer license.

The Board recessed at 9:35 a.m. and resumed at 9:55 a.m.

The Board unanimously approved the motion made by Mr. Mustapha, seconded by Mr. Thompson, to approve the travel expenses for Board members, staff and Emeritus Board members to attend the 2014 NCEES Annual Meeting, August 20-23, 2014, in Seattle, Washington.

Closing Business

The Board unanimously approved the motion made by Mr. Thompson, seconded by Mr. Mustapha, to approve all committee recommendations and actions.

The Board unanimously approved the motion made by Mr. Thompson, seconded by Mr. Knotts, to acknowledge and confirm all licenses and certificates issued by the Board.

The Board unanimously approved the motion made by Mr. Mustapha, seconded by Dr. Hale, to approve all Board expenses.

The Board recessed at 10:15 a.m. and resumed at 1:25 p.m.
