Chapter 7. Bylaws

§707. Board Organization

A. – D.4. …

E. Committees. The board may establish standing committees, including but not limited to the following: executive committee, civil engineering committee, other disciplines engineering committee, land surveying committee, engineer intern committee, liaison and law review committee, education/accreditation committee, finance committee, nominations and awards committee, complaint review committees, continuing professional development committee, architect-engineer liaison committee, and firm licensure committee. The board may also establish ad hoc committees from time to time as necessary.

1. – 3.b.ii. …

4. Land Surveying Committee. The chairman of the board may appoint not less than two members to the land surveying committee. All members of the land surveying committee shall be professional land surveyors. The land surveying committee shall:

a. – d. …

| e. recommend passing scores for the examinations on the Louisiana laws of land surveying. |

5. – 13. …

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:688.

§709. Executive Director

A. – B. ...

C. Duties of the Executive Director. The executive director shall:

1. – 6. ...

7. make arrangements as required by the board for all examinations and interviews of applicants;

8. supervise the administration of the examinations;

9. – 25. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:688.

Chapter 9. Requirements for Certification and Licensure of Individuals and Temporary Permit to Practice Engineering

§901. Engineer Intern Certification

A. The requirements for certification as an engineer intern under the several alternatives provided in the licensure law are as follows.

1. Graduates of an Accredited Engineering Curriculum. The applicant shall be a graduate of an accredited engineering curriculum of four years or more approved by the board as being of satisfactory standing, who is of good character and reputation, who has passed the examination required by the board in the fundamentals of engineering, who was recommended for certification by a professional engineer holding a valid license to engage in the practice of engineering issued to him/her by proper authority of a state, territory, or possession of the United States, or the District of Columbia, who has submitted an application for certification in accordance with the requirements of R.S. 37:694, and who was duly certified as an engineer intern by the board.

2. Graduates with Advanced Engineering Degree. The applicant shall be a graduate of a non-EAC/ABET accredited engineering or related science or engineering technology curriculum of four years or more approved by the board as being of satisfactory standing, who has obtained an engineering graduate degree in an engineering discipline or sub-discipline from a university having an undergraduate accredited engineering curriculum in the same discipline or sub-
discipline, approved by the board as being of satisfactory standing, who is of good character and reputation, who has passed the examination required by the board in the fundamentals of engineering, who was recommended for certification by a professional engineer holding a valid license to engage in the practice of engineering issued to him/her by proper authority of a state, territory, or possession of the United States, or the District of Columbia, who has submitted an application for certification in accordance with the requirements of R.S. 37:694, and who was duly certified as an engineer intern by the board.

3. Other Non-EAC/ABET Engineering Graduates. The applicant shall be a graduate of a non-EAC/ABET accredited engineering curriculum of four years or more approved by the board as being of satisfactory standing, who has a specific record of four years or more of verifiable progressive experience obtained subsequent to graduation, on engineering projects of a level and scope satisfactory to the board, who is of good character and reputation, who has passed the examination required by the board in the fundamentals of engineering, who was recommended for certification by a professional engineer holding a valid license to engage in the practice of engineering issued to him/her by proper authority of a state, territory, or possession of the United States, or the District of Columbia, and having a personal knowledge of his engineering experience, who has submitted an application for certification in accordance with the requirements of R.S. 37:694, and who was duly certified as an engineer intern by the board.

B. …

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:688.

§903. Professional Engineer Licensure

A. The requirements for licensure as a professional engineer under the two alternatives provided in the licensure law are as follows:

1. the applicant for licensure as a professional engineer shall be an engineer intern, or an individual who meets the qualifications to be an engineer intern, who has a verifiable record of four years or more of progressive experience obtained subsequent to meeting the educational and applicable experience qualifications to be an engineer intern on engineering projects of a level and scope satisfactory to the board, who is of good character and reputation, who has passed the examination required by the board in the principles and practice of engineering in the discipline of engineering in which licensure is sought, who was recommended for licensure by five personal references, three of whom are professional engineers who have personal knowledge of the applicant's engineering experience and character and ability, and who has submitted an application for licensure in accordance with the requirements of R.S. 37:694, and who was duly licensed as a professional engineer by the board; or
§907. Land Surveyor Intern Certification

A. A land surveyor intern shall be either:

1. a graduate holding a baccalaureate degree from a curriculum of four years or more who has completed at least 30 semester credit hours, or the equivalent, in land surveying, mapping, and real property courses approved by the board, who is of good character and reputation, who has passed the examination required by the board in the fundamentals of land surveying, who was recommended for certification by a professional land surveyor holding a valid license to engage in the practice of land surveying issued to him/her by proper authority of a state, territory, or possession of the United States, or the District of Columbia, who has submitted an application for certification in accordance with the requirements of R.S. 37:694, and who was duly certified as a land surveyor intern by the board; or

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:688.

§909. Land Surveyor Licensure

A. The requirements for licensure as a professional land surveyor under the two alternatives provided in the licensure law are as follows:

1. an applicant for licensure as a professional land surveyor shall be a land surveyor intern, or an individual who meets the qualifications to be a land surveyor intern, who is of good character and reputation, who has a verifiable record of four years or more of combined office and field experience in land surveying including two years or more of progressive experience on land surveying projects under the supervision of a professional land surveyor, who has passed the
oral examination **required by the board**, who has passed the examinations **required by the board** in the **principles** and practice of land surveying and Louisiana laws of land surveying, and who was recommended for licensure by five personal references (at least three of whom must be professional land surveyors who have personal knowledge of the applicant), who has submitted an application for licensure in accordance with R.S. 37:694, and who was duly licensed as a professional land surveyor by the board; or

2. the applicant shall be an individual who holds a valid license to engage in the practice of land surveying issued to him/her by the proper authority of a state, territory, or possession of the United States, or the District of Columbia, based on requirements that do not conflict with the provisions of the licensure law, and which were of a standard not lower than that specified in the applicable licensure law in effect in Louisiana at the time such license was issued, who is of good character and reputation, who has passed the examinations **required by the board** in the fundamentals of land surveying, principles and practice of land surveying and Louisiana laws of land surveying, who has submitted an application for licensure in accordance with the requirements of R.S. 37:694, and if the state, territory, or possession, or the District of Columbia in which he/she is licensed will accept the licenses issued by the board on a comity basis, and who was duly licensed as a professional land surveyor by the board.

B. …

**AUTHORITY NOTE:** Promulgated in accordance with R.S. 37:688.

Chapter 13. Examinations

§1301. General

A. – E. …

F. The board may require applicants to demonstrate their knowledge of the laws and rules of the board, and the English language. Applicants must be able to speak and write the English language. Proficiency in English may be evidenced by possession of a baccalaureate degree taught exclusively in English, or by passage of both the TOEFL (Test of English as a Foreign Language) paper based exam with a score of 550 or better (213 or better on the TOEFL computer based exam) and the TSE (Test of Spoken English) exam with a score of 45 or better. The TOEFL and TSE representative is TOEFL AND TSE Services, Educational Testing Service, P.O. Box 6151, Princeton, NJ 08541-6151, Telephone: (609) 771-7100. The TOEFL/TSE Code for this agency is 8425. Applicants requesting a waiver from the TOEFL and/or TSE requirements
must submit a written request and supporting reasoning to the board. A waiver from the TOEFL and/or TSE requirements may be granted by the board upon receipt of one of the following:

1. a passing score on the Graduate Record Examination (GRE); or
2. transcripts which verify the successful completion of 6 full-time semesters (6 credit hours per semester) toward a graduate engineering degree in the United States.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:688.

Chapter 15. Experience

§1509. Experience At Time Of Application

A. Experience must not be anticipated.

B. For applicants for professional engineer licensure under §903.A.1 of these rules, the “verifiable record of four years or more of progressive experience obtained subsequent to meeting the educational and applicable experience qualifications to be an engineer intern” must be gained by the time of licensure. Such applicant is required to have gained a minimum of three years and four months of such experience by the time of the application.

C. For applicants for professional land surveyor licensure under §909.A.1 of these rules, the “verifiable record of four years or more of combined office and field experience in land surveying including two years or more of progressive experience on land surveying projects under the supervision of a professional land surveyor” must be gained by the time of licensure. Such applicant is required to have gained a minimum of three years and four months of such experience by the time of the application.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:688.
HISTORICAL NOTE: Promulgated by the Department of Transportation and Development, Professional Engineering and Surveying Board, LR 27:1031 (July 2001), amended LR 30:1716 (August 2004), LR 37:2413 (August 2011), LR 38:

Chapter 17. Applications and Fees

§1701. Applications

A. – E. …
F. An application for licensure may be considered incomplete by the board. The applicant may be denied admission to an examination until the information submitted in the application has been investigated and replies have been received from references. The board may require additional information and documents it considers necessary for the proper evaluation of an application.

G. – I. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:688.
